Increased CT performance of each system

[Raise the maximum magnification of CT imaging]

By adding [**Advance**], it becomes possible to raise the maximum magnification of CT depending on mechanical performance.

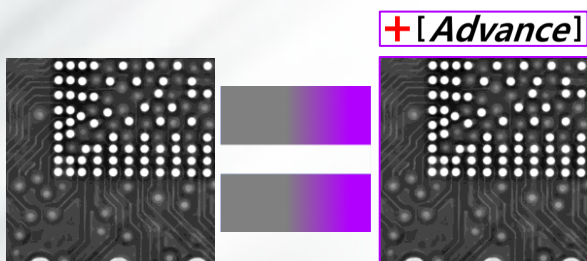

[Can be added to existing system]

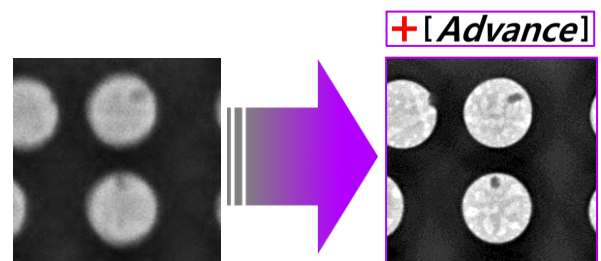

[**Advance**] can be added to already installed system.
(*Except for some models)

[Advance use case]

<Low-medium magnification imaging>

<High magnification imaging>

When imaging at high magnification, its image quality can be improved through CT calculation using a unique new algorithm.
